## **THE POWER TO RAISE PRODUCTIVITY**

The Develon ADT concept offers a larger load capacity in all weight categories. Additional load capacity, combined with superior power and traction, improve productivity. The unique advantages of the Develon ADT's permanent 6-wheel drive, free-swinging rear tandem, front-mounted turning ring, independent front wheel suspension, and sloping rear frame provide excellent driving stability with equal weight distribution and superior traction. The Develon Articulated Dump Truck is designed to work under very tough conditions and travel up to 55 km/h.

# TOP PERFORMANCE AND FUEL EFFICIENCY

## ENGINES – LOWER EMISSIONS, SAME GREAT PERFORMANCE

Develon ADTs use only proven, reliable and powerful diesel Scania engines with excellent torque, which achieve low fuel consumption and fulfill Stage V European regulation requirements.

## NEW SELF-LEVELING HYDRO-GAS FRONT SUSPENSION

The DA30's design was based on the successful and proven design of the DA45. It has been upgraded with the self-leveling system for better shock absorption in changing operating conditions.

## PAYLOAD METER

Powerful hydraulic retarder keeps machine's speed constant on downhills without support of service brakes. Operator can easily adjust the retarder's power by lever or simply pushing the gas pedal.

## TRANSPORTABILITY

Thanks to its less than 3-meter width, the DA30 can be moved easily from one site to another. And thanks to the compact design of both machines, a shorter low loader can be used.

## FORWARD-MOUNTED TURNING RING

The turning ring is located in front of the articulation point, ensuring equal weight distribution to the front wheels in all operating situations, including maximum turning. The equal weight distribution enables you to use the limited slip differentials with only 45% locking value – ensuring drive to both front wheels in all situations, without completely locking the wheels.

## TRACTION

The Develon ADT's unique design offers permanent 6-wheel drive, ensuring stability and equal weight distribution to accommodate all job applications. The Develon ADTs superior driveline ensures maximum traction and durability.

**Design simplicity:** Permanent 6-wheel drive, together with the ground-following rear tandem and our special front-mounted turning ring, provide equal power & weight distribution and excellent operating performance. The sloping rear frame provides a lower centre of gravity - improving the ADT's overall stability, and ensuring fast and easy tipping of the body for increased productivity.
