

J35R

Recirculating Compact Jaw Crusher

The McCloskey™ J35R recirculating compact Jaw Crusher combines the productivity of our J35 with the versatility of a full screening and recirculating system, suited particularly to construction and demolition recycling, asphalt recycling, and aggregates. This highly mobile crusher moves nimbly around in small spaces, and continues moving while crushing.

The J35R's small footprint is uniquely suited to the demolition and asphalt recycling, aggregates and smaller scale construction projects. Less than 2.5m wide, the crushers can be transported easily from site to site.

Features

- 890mm (35") x 500 (20") single toggle jaw
- Integrated hydraulic folding stockpiling conveyors
- Open chassis design for ease of maintenance
- Crawler Tracks
- I-beam plate fabricated chassis construction
- Fast setup time
- Swing out radial return conveyor

Feeder

One piece vibrating grizzly feeder with 3.6 yd³ (2.75m³) volume capacity. The J35 features manual and remote adjustable speed.

Jaw Crusher

True 35" x 20" feed opening to hydraulic drive crusher more power, along with better fuel efficiency and lower fuel costs.

Big Power - Small Footprint

Robust and fuel efficient 218Hp (162kW) Volvo engine brings all the power you need to your project.

Highly Mobile

The J35 can easily crush and move at the same time, ensuring maximum mobility on project sites. A two speed system is selectable at the control panel with smooth start/stop.

Recirculating System

Recirculation conveyor allows operators to produce a crushed and screened final product with one machine.

SPECIFICATION DATA

Dimensions and Capacities

Engine	218 Hp (162 kW) Diesel
Transport Height	9' 9" (2.98m)
Transport Length	42' 7" (12.99m)
Transport Width	8' 6" (2.59m)
Weight - w/ magnet & side conveyor	58,179 lb (26,400kg)
Crushing Chamber	35" (wide) x 20" (pitman opening)
Stockpile Height Main Conveyor	8' 4" (2.54m)
Stockpile Height Side Conveyor	8' 6" (2.58m)
Optional Prescreen Feeder	78.7" x 166" (2000mm x 4215mm)
